

# Heads-up info:

## ILEA – Agoria B2B event: 20 NOV

- Scope
  - Bringing together innovative suppliers from Belgium and Luxembourg
  - Discussing solutions to key automotive challenges, in the area of
    - **sustainable e-mobility**
    - **user experience**
    - **agility in development and production**
    - **More detail on participating Agoria members on next page!**
- Tentative set-up
  - Half-day B2B technology workshop with a plenary session and 1-on-1 meetings to interact with technology experts, followed by an informal networking cocktail
  - Participating companies would each have a B2B discussion desk, allowing 1-on-1 meetings
- Location, timing
  - Chambre de Commerce, Luxembourg, Monday 20 NOV, 13.30h – 17.30h
  - **YOUR contribution**
    - **Short stand-up company intro**
    - **Each ILEA participating company can have an own B2B desk for 1-on-1 meetings**
    - **You'd bring technical experts for discussion**
    - **You'd bring company own signage (e.g. roll-up banners) as available**

# Agoria Transport & Mobility Technology Club

providing solutions to key automotive challenges

## Sustainable / electric mobility

- Electric powertrain and hybrid systems
- Dual clutch and continuously variable transmissions
- Busbar solutions for e-mobility
- Laser welding of battery packs
- Blind rivet nut connectors
- Venting solutions
- Customized test, measurement and inspection equipment

## User experience

- 3D sound for automotive
- Bio-monitoring technology
- Digital manufacturing of personalized car parts
- Time-of-flight chipset
- Far infrared thermal sensor array
- NVH products. Reinforcing your metal
- High performance sealer
- Car electronics
- Car infotainment gesture control

## Agility in development and production

- Laser technology – process development – machine development
- Human interface mate
- Fully customized test, measurement and inspection equipment
- Blind rivet nut connectors
- Heavy product moving (skates, boxes, fasteners)
- 3D printed tools for production lines, fixtures, smart cube
- Paperless and mobile procedures
- Paperless manufacturing solutions
